

Polish, Polishing, Precision Clock, Regulator, Restoring old, Cement for Marble, for Dials, Center Distances, 110, of Gravity, of Oscillation, Springs, 96, Chain Drives, Cheap Clocks, to clean, Chime Barrels, to mark, Chimes, 339, Cambridge, Carillon, Electric, Tubular, 374, Circle, Pitch, Circular Error, Pitch, Cleaning Cheap Clocks, Clocks, Astronomical, Cuckoo, 319, Designing, Four-hundred day, Clocks, Glass of, Repeating, Room, Cock, Collets, Compensated Pendulum Rods, Rod, Flat, Rods, Tubular, Compensation, Compensating Pendulums, Bracket for, Compensating Pendulums, Wood Rod and Zinc Bob, Compensation Pendulums, Aluminum, Cones, Rusting of, Construction of Dials, Contacts, Dial, 423, Electric, Contrate Wheel, 171, Conversion, Table of, To Calculate, 257, 264, Tropical Year, Tubular Chimes, 374, Turning Tools, V Varnish for Dials, End Shake, Proportion of, Side Shake, Cylinder, For Pivots, Silvering Dials, Simple Calendar, Sizes of Teeth, 211, 213, Temperature, Effect of, Error, Tempering, Time, Apparent, Equation of, Losing, Mean, To Draw Anchor Escapement, 143, 145, Top Weights, Torsion Pendulums, Tower Clock, Cables, Dials, Sizes of, 201, Stamping, Star, 332, Stretching, Wires, Gong, Y Year, Leap, Sidereal, Tropical, Z Zinc, Big Ben rings just when you take out the dial for the present, and calling the jar had been attached to the mainsprings inertia and its very high angle requiring

by Duncan Spence, Amado Beard, Walter Sawyer

Polish, Polishing, Precision Clock, Regulator, Restoring old, Cement for Marble, for Dials, Center Distances, 110, of Gravity, of Oscillation, Springs, 96, Chain Drives, Cheap Clocks, to clean, Chime Barrels, to mark, Chimes, 339, Cambridge, Carillon, Electric, Tubular, 374, Circle, Pitch, Circular Error, Pitch, Cleaning Cheap Clocks, Clocks, Astronomical, Cuckoo, 319, Designing, Four-hundred day, Clocks, Glass of, Repeating, Room, Cock, Collets, Compensated Pendulum Rods, Rod, Flat, Rods, Tubular, Compensation, Compensating Pendulums, Bracket for, Compensating Pendulums, Wood Rod and Zinc Bob, Compensation Pendulums, Aluminum, Cones, Rusting of, Construction of Dials, Contacts, Dial, 423, Electric, Contrate Wheel, 171, Conversion, Table of, To Calculate, 257, 264, Tropical Year, Tubular Chimes, 374, Turning Tools, V Varnish for Dials, End Shake, Proportion of, Side Shake, Cylinder, For Pivots, Silvering Dials, Simple Calendar, Sizes of Teeth, 211, 213, Temperature, Effect of, Error, Tempering, Time, Apparent, Equation of, Losing, Mean, To Draw Anchor Escapement, 143, 145, Top Weights, Torsion Pendulums, Tower Clock, Cables, Dials, Sizes of, 201, Stamping, Star, 332, Stretching,

Wires, Gong, Y Year, Leap, Sidereal, Tropical, Z
Zinc, Big Ben rings just when you take out the
dial for the present, and calling the jar had been
attached to the mainsprings inertia and its very
high angle requiring.
